

# ANNUAL INDEX

This index reflects material appearing in the 1993 issues of **RN**. Articles are listed alphabetically under subject headings. Each entry gives the title, issue, and page number on which the article begins. Those with continuing education tests are marked with an asterisk. Articles from "Ethics in Action," "Legally Speaking," "Nutrition Support," "Speak Up!" and "Taking Charge" are entered by subject.

## AIDS

- HIV vs. a nurse's right to work. Jan:63
- Managing AIDS-related meningitis. Nov:36
- What diet can do to combat HIV infection. June:71
- \*Women and HIV. May:34

## CARDIOLOGY/CARDIOVASCULAR SYSTEM

- Arrhythmia review:
  - Second-degree AV block. Feb:43
  - Third-degree heart block. June:52
- \*Cardiomyopathy: How to buy time. May:28
- \*Emergency cardiac care:
  - Fine-tuning for the '90s. Sept:50
  - The new drug protocols. Nov:52
- Fat substitutes—a closer look. Apr:67
- \*Hypertension: New guidelines, new roles. Dec:54
- \*New eye into the heart. Oct:36
- New guardians of the heart. Mar:65
- Patient teaching:
  - Cardioversion. Jan:45
  - Transesophageal echocardiogram. Apr:54
- \*SAECG: A closer look at the heart. May:50

## CAREER DEVELOPMENT

- 1993 Earnings survey:
  - Double-digit raises disappear. Oct:54
  - How your fringe benefits stack up. Dec:40
- A nurse fights the system—and wins. Aug:42

## CHARTING

- Documenting doctors' preferences: A new management tool. Apr:23
- \*OTC interactions: Start with the medicine cabinet. Jan:50
- Ethics in Action: When a nurse from another department reads your patient's chart. July:22
- Rx: Error-free meds. June:65

## CRITICAL CARE

- \*Emergency cardiac care:
  - Fine-tuning for the '90s. Sept:50
  - The new drug protocols. Nov:52
- \*Hyperbarics: When pressuring patients helps. Mar:44
- \*Managing ARDS. July:52

- \*When gauging respiratory status is critical. Nov:40

## DEATH

- Ethics in Action:
  - A patient and her parents disagree on a DNR order. Nov:23
  - Withdrawing life support. May:25
- Even the right decision can feel wrong. Mar:88
- Organ donation: Whose decision is it anyway? Nov:61

## DERMATOLOGY

- \*Assessing pediatric rashes. Apr:58
- Taking the sting out of summer. July:40

## DIABETES

- B-G-T-E-S-T: A basic review. June:49
- Does milk cause juvenile diabetes? Jan:69
- Managing diabetes: A major study injects good news. Oct:26

## DISEASE

(see also AIDS, Diabetes, Oncology)

- \*Fighting MDR-TB. Sept:26
- \*Anergy testing—a vital weapon. Sept:31
- Taking the fight to the streets. Sept:34
- \*Lead—still poisoning our children. Feb:28
- Managing AIDS-related meningitis. Nov:36
- \*Von Hippel-Lindau: A relentless disorder. Aug:36
- What's wrong with this patient?
  - Ehlers-Danlos syndrome. Feb:34
  - Reflex sympathetic dystrophy syndrome. May:45
- \*The who, what, and when of pediatric immunization. Sept:42

## DRUGS

- \*Cutting postop pain. Aug:26
- \*Emergency cardiac care: The new drug protocols. Nov:52
- FDA approvals: '92 in review. Mar:50
- New drug bulletin:
  - Interferon beta-1b (Betaseron). Dec:47
  - Tacrine (Cognex). Dec:49

## \*OTC interactions:

- Analgesics and anti-inflammatories. Jan:54
- Antacids. Aug:46
- Asthma medications. Apr:40
- Cough, cold, and allergy preparations. Feb:38
- GI remedies. Oct:30
- Start with the medicine cabinet. Jan:50
- Vitamins and minerals. June:28
- Reporting to the FDA. Dec:61
- Rx: Error-free meds. June:65
- We put IV therapy down on paper. Jan:34
- \*When heparin causes clots. Mar:34
- Zofran makes chemo bearable. May:56

## EMERGENCY CARE

- \*Burn care basics and beyond. Mar:26
- \*Emergency cardiac care:
  - Fine-tuning for the '90s. Sept:50
  - The new drug protocols. Nov:52
- \*Defusing the violent patient. Dec:24
- \*Seconds count when a child is poisoned. Oct:46
- Taking the sting out of summer. July:40

## EQUIPMENT

- A little light makes venipuncture easier. Mar:40
- A nurse's guide to implanted ports. Apr:48
- Arrhythmia review:
  - Second-degree AV block. Feb:43
  - Third-degree heart block. June:52
- \*Cardiomyopathy: How to buy time. May:28
- Catheterization: How far should you go? Aug:52
- \*New eye into the heart. Oct:36
- One step closer to safe transfusions. Dec:38
- Reporting to the FDA. Dec:61
- \*SAECG: A closer look at the heart. May:50
- \*Six steps to successful stoma care. July:32
- This nurse-inventor designs a third hand. Sept:40
- \*When gauging respiratory status is critical. Nov:40

## ETHICS

- Ethics in Action:
  - A patient and her parents disagree on a DNR order. Nov:23
  - A pediatric AIDS patient is put among regular patients. Sept:21
  - When a nurse from another department reads your patient's chart. July:22

# ANNUAL INDEX

When the doctor orders only placebo for patient's pain. Mar:21  
When the doctor refuses to reduce the dosage of painful injections. Jan:25  
Withdrawing life support. May:25  
Did Henry deserve more from us? Oct:42  
Even the right decision can feel wrong. Mar:88

## FAMILY

Don't shut families out. Sept:59  
Ethics in Action:  
A patient and her parents disagree on a DNR order. Nov:23  
Withdrawing life support. May:25  
"Nurse and tell"—make it policy. Jan:96  
Organ donation: Whose decision is it anyway? Nov:61

## FLUID IMBALANCE

\*Burn care basics and beyond. Mar:26

## GASTROINTESTINAL

\*Cholecystectomy: An update. Jan:28  
\*OTC interactions:  
Antacids. Aug:46  
GI remedies. Oct:30  
Zofran makes chemo bearable. May:56

## GENITOURINARY

Catheterization: How far should you go? Aug:52  
\*Six steps to successful stoma care. July:32

## GERIATRICS

\*Preparing your older patient for surgery. Jan:38

## HEMATOLOGY

\*Managing transfusion reactions. Dec:32  
One step closer to safe transfusions. Dec:38  
\*Your guide to trouble-free transfusions. Nov:26  
\*When heparin causes clots. Mar:34

## HOSPITALS

Beyond QA, the easy way. Aug:19  
Drug testing is here to stay. Mar:59  
Hospital patients have a right to privacy. Feb:92  
\*Hyperbarics: When pressuring patients helps. Mar:44  
Less isn't more if you can't read it. Apr:96  
Patient teaching by the book. July:48  
Rx for the holidays: Simple gifts, memorable moments. Dec:80

## INFECTIONS

\*Fighting MDR-TB. Sept:26  
\*Anergy testing—a vital weapon. Sept:31  
Taking the fight to the streets. Sept:34  
Managing AIDS-related meningitis. Nov:36  
\*Women and HIV. May:34  
What diet can do to combat HIV infection. June:71

## IV THERAPY

A little light makes venipuncture easier. Mar:40  
A nurse's guide to implanted ports. Apr:48

\*Managing transfusion reactions. Dec:32  
\*Your guide to trouble-free transfusions. Nov:26  
We put IV therapy down on paper. Jan:34  
\*When heparin causes clots. Mar:34

## LEGAL

Don't shut families out. Sept:59  
Drug testing is here to stay. Mar:59  
HIV vs. a nurse's right to work. Jan:63  
Less isn't more if you can't read it. Apr:96  
Malpractice protection—how much is enough? May:61  
Organ donation: Whose decision is it anyway? Nov:61  
Policies and procedures: Protection or peril? July:61  
Reporting to the FDA. Dec:61  
Rx: Error-free meds. June:65  
Sexual harassment: An updated picture. Feb:61  
Staying out of trouble on the telephone. Oct:63

## MANAGEMENT

A good manager has to delegate. Feb:23  
Beyond QA, the easy way. Aug:19  
Documenting doctors' preferences: A new management tool. Apr:23  
Patient teaching by the book. July:48  
Policies and procedures: Protection or peril? July:61  
Problem with a staff member? Try these tools. June:25  
Say it with pictures. Oct:21  
Self-scheduling turned us into a winning team. Dec:21  
We put IV therapy down on paper. Jan:34

## NEUROLOGY

Headaches? Change your diet. May:69  
Managing AIDS-related meningitis. Nov:36  
\*Postop effects of OR positioning. Feb:50  
\*Von Hippel-Lindau: A relentless disorder. Aug:36  
What's wrong with this patient? Reflex sympathetic dystrophy syndrome. May:45

## NUTRITION

Deciphering the new food labels. Aug:57  
Does milk cause juvenile diabetes? Jan:69  
Fat substitutes—a closer look. Apr:67  
Headaches? Change your diet. May:69  
Managing diabetes: A major study injects good news. Oct:26  
New guardians of the heart. Mar:65  
\*OTC interactions: Vitamins and minerals. June:28  
Suggest diets with a difference. Feb:67  
What diet can do to combat HIV infection. June:71

## OBSTETRICS-GYNECOLOGY

A picture-perfect birth. June:45  
\*Birth: Nursing's role in today's choices. June:38  
\*Women and HIV. May:34

## ONCOLOGY

Did Henry deserve more from us? Oct:42  
Zofran makes chemo bearable. May:56

## ORTHOPEDICS

\*Fractures are never simple. Apr:30  
Now I stand up for my patients. Apr:37  
What's wrong with this patient? Ehlers-Danlos syndrome. Feb:34

## PAIN

\*Cutting postop pain. Aug:26  
Get your patient moving. June:34  
\*Postop effects of OR positioning. Feb:50

## PATIENTS

A father's fear, a nurse's kindness. May:43  
Get your patient moving. June:34  
Hospital patients have a right to privacy. Feb:92  
Patient teaching by the book. July:48  
Suggest diets with a difference. Feb:67

## PATIENT TEACHING

B-G-T-E-S-T: A basic review. June:49  
Get your patient moving. June:34  
\*Lead—still poisoning our children. Feb:28  
Now I stand up for my patients. Apr:37  
Patient handouts? We're wasting our time. July:88  
Patient teaching by the book. July:48  
Patient teaching:  
Cardioversion. Jan:45  
Electroconvulsive therapy. July:29  
Transesophageal echocardiogram. Apr:54  
"Nurse and tell"—make it policy. Jan:96

## PEDIATRICS

\*Assessing pediatric rashes. Apr:58  
Even the right decision can feel wrong. Mar:88  
\*Lead—still poisoning our children. Feb:28  
\*Seconds count when a child is poisoned. Oct:46  
\*The who, what, and when of pediatric immunization. Sept:42

## PROCEDURES

A nurse's guide to implanted ports. Apr:48  
\*Cardiomyopathy: How to buy time. May:28  
Catheterization: How far should you go? Aug:52  
\*Emergency cardiac care:  
Fine-tuning for the '90s. Sept:50  
The new drug protocols. Nov:52  
\*Hyperbarics: When pressuring patients helps. Mar:44  
\*SAECG: A closer look at the heart. May:50  
\*Shock therapy: Facts, not myths. July:26  
\*Six steps to successful stoma care. July:32  
We put IV therapy down on paper. Jan:34

## PROFESSIONAL ISSUES

1993 Earnings survey:  
Double-digit raises disappear. Oct:54  
How your fringe benefits stack up. Dec:40  
A father's fear, a nurse's kindness. May:43  
A nurse fights the system—and wins. Aug:42  
Bedpans and blood—changing perceptions about nursing. Aug:80  
\*Birth: Nursing's role in today's choices. June:38  
Did Henry deserve more from us? Oct:42  
Don't be afraid of the R word. Sept:96  
Drug testing is here to stay. Mar:59  
Going to camp: An Rx for burnout. Oct:88

# ANNUAL INDEX

New pins in the **RN** collection. Dec:52  
Put these on your bookshelf. Nov:49  
Rx for the holidays: Simple gifts, memorable moments. Dec:80  
What are we about? June:88  
What would you rather be doing? Feb:46  
When you're ready to give up. Nov:88  
"Nurse and tell"—make it policy. Jan:96

## PSYCHIATRY

\*Shock therapy: Facts, not myths. July:26

## RENAL

\*Risks and rewards of kidney transplants. June:56

## RESPIRATORY

\*Managing ARDS. July:52  
\*OTC interactions: Asthma medications. Apr:40  
\*When gauging respiratory status is critical. Nov:40

## SEX

Sexual harassment: An updated picture. Feb:61

## SURGERY

\*Cholecystectomy: An update. Jan:28  
\*Cutting postop pain. Aug:26  
\*Postop effects of OR positioning. Feb:50  
\*Preparing your older patient for surgery. Jan:38  
\*Risks and rewards of kidney transplants. June:56

## SURVEYS

1993 Earnings survey:  
Double-digit raises disappear. Oct:54  
How your fringe benefits stack up. Dec:40  
What would you rather be doing? Feb:46

## STAFFING & SCHEDULING

A good manager has to delegate. Feb:23  
Self-scheduling turned us into a winning team. Dec:21

## TESTS

\*Anergy testing—a vital weapon. Sept:31  
Arrhythmia review:  
Second-degree AV block. Feb:43  
Third-degree heart block. June:52  
Patient teaching:  
Cardioversion. Jan:45  
Electroconvulsive therapy. July:29  
Transesophageal echocardiogram. Apr:54

## TRAUMA

\*Burn care basics and beyond. Mar:26  
What's wrong with this patient? Reflex sympathetic dystrophy syndrome. May:45

## WOUND CARE

\*Burn care basics and beyond. Mar:26  
\*Hyperbarics: When pressuring patients helps. Mar:44  
\*Postop effects of OR positioning. Feb:50
